different.**

An iHemp awareness campaign

THE BRIEF

**WE NEED YOU..AND
YOUR CREATIVE MINDS!**

**Make iHemp
a part of the
fabric of
every day life**

In both its cultivation and uses, industrial hemp (iHemp) is considered an exceptionally environmentally friendly crop.

We want you to think of this principle and get creative - take classic kiwiana, contemporary NZ style or abstract art to symbolise how iHemp can help our environment and Aotearoa.

We are also interested in “slogans” that can be made into bumper stickers and printed on the bags here’s a couple to get you started: “Hurd of iHemp?”, “H.E.M.P - Help Educate MP’s”.

Your design will be applied to 100% hemp made bags which will be distributed to supermarkets and selected retailers.

EDUCATING AOTEAROA: IHEMP IS THE FUTURE

This is an opportunity to educate Aotearoa and to bring iHemp into the lives of every New Zealander. This bag becomes a tool with which to bring awareness to society that iHemp is the future with it's low carbon, long life span, low irrigation, chemical and spray-free growing process, it is above all other choices.

Our aims

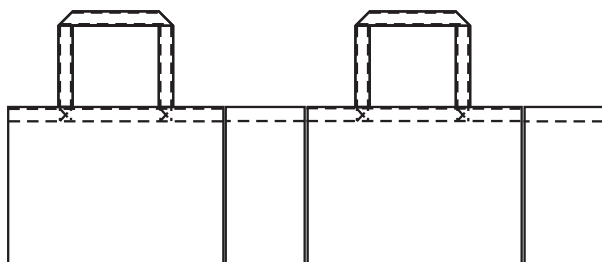

- Raising awareness of hemp products to the consumer, and, reducing plastic waste by refusing to use reusable plastic bags as well as the single use plastics.
- NZHIA will offer a truly sustainable alternative to all bags currently on the market - a reusable bag that is made of hemp.
- The NZHIA hemp bag will be made readily available, at local markets and retail stores, and we hope to get it in to major supermarkets and big chain stores throughout Aotearoa New Zealand.
